

Spring 2022

Hello Garden Club Members,

Happy Spring! I hope you all are enjoying the extra sunlight now that Day Light Saving is here. I'm looking forward to working in my garden after a long, chilly winter. Cutting back my Rose of Sharon is first on my list, after a clean up of garden debris. It's going to be wonderful to be outside in nature.

Living on the Cape brings many joys to us with the beautiful vistas and the gorgeous beaches and ponds. The Cape has a lovely charm all its own. Part of the Club's mission statement is that we work to preserve the beauty of this special peninsula. With that in mind, we should all enjoy our next presentation on April 5th by Kristen Andres, the Associate Director for Education and Informational Services for the Association to Preserve Cape Cod. She'll be discussing eco-friendly Cape Cod landscape, design, maintenance and climate-wise land care.

At our May 3rd meeting, Sonny (Frank Gada), an award winning floral designer will show us his unique approach to floral arranging, focusing on natural objects and found treasures to create exciting floral pieces. He approaches floral arranging as an art, and all nature becomes his palette. His presentations are always a delight.

Also in May is our annual plant sale and, added to it this year...a yard sale! We request that every member donates at least 5 plants either from your own garden or purchased. We are also adding a yard sale to the plant sale as many of us have unused treasures that we're sure someone would love to buy! Nancy Howe will be able to speak to many of you about what we can sell at the sale. The plant and yard sale take place on Saturday, May 21st.

On June 7th, we will have our final meeting with a catered luncheon at Anne Cave's beautiful home on Wrinkle Point in West Dennis. This is always a wonderful time to get together and enjoy each other's company with the ocean as a back drop. We also vote to fill in any Board positions that become vacant. The fee for our luncheon is \$25.

I'm looking forward to seeing you all this Spring!

Sincerely,

Peggy Gillis
